

Snapshots of Knobs & Wires – June 2nd, 2018 / Creative Quarter / Munich, Southern Germany. Live concerts, lectures, workshops, exhibitions and trade fairs: All about synthesizers / modular systems / electronic music. This was a synthesizer festival in the best sense of the word. The weather was fine, the audience inquisitive and open-minded – no wonder the organizers were highly satisfied.

Congratulations to the Knobs & Wires team for this successful synthesizer festival. The electronics scene thanks a lot ... and we hope this happening to be continued!
