

Arturia MicroBrute SE - new limited edition colors

Last year, Arturia has succeeded in producing a complete, excellently sounding analog synth with step-sequencer and CV-panel - the [MicroBrute](#)! Now, there's the limited **MicroBrute SE** Edition. For each style, its MicroBrute SE color! Discover the new re-editions: pure white, electric blue or pastel orange.

MICROBRUTE SE

Packed with mixable waveforms, a new sub oscillator design, the famous Steiner-Parker multimode filter, super fast envelope, syncable LFO and the new step sequencer, not to mention the patchable mod matrix the MicroBrute SE is a landmark new synth at an incredible price.

This special edition is produced in limited quantity, 1500 units for each color.
