

Andreas Krebs - Das große Buch zum Doepfer A-100 Modular-Synthesizer

Whoever is considering the acquisition of a modular system is often confronted with a multitude of questions. Andreas Krebs answers most of them by demonstrating and explaining the Doepfer A-100 Modular Synthesizer.

The book, a 320-pages-tome, deals with all aspects of modular synthesis: oscillators, filters, etc. - starting with basic information, but getting more and more detailed towards the end of the book. This masterpiece is not only the most comprehensive A-100 dictionary, it's also visually appealing and easy to read.

Unfortunately, the book is available in German language only.

Price: 29,90 Euros (incl. VAT)
