

GRP A2 and R24 - noble analog performance in classic rack format

First, the *very good* news: The [GRP A2 Synthesizer](#) is available since mid-August 2017. First units have already been shipped to customers (and selected music stores). Now the *even better* news: That A2 looks fantastic in combination with the R24 sequencer. Nothing unexpected, of course, but in *real life* it's a tasteful eye-catcher. Noble analog performance (with MIDI and USB) in classic rack format.

Admittedly, we are *enthusiastic* about GRP. What could be more beautiful than those filter sweeps, pulsating basses and massive notch-filter sounds? Some A2 demos are attached ...
