

Komplex Sequencer - the mega analog-sequencer

KOMA Elektronik is happy to announce that the Komplex Sequencer is in production and [pre-orders have been opened](#) on their website (and at selected dealers worldwide).

Price is 1699 Euros (incl. 19% VAT).

This new step sequencer lets you construct complex musical patterns, via both MIDI and CV/Gate. Built around four full-featured 16-step sequencers in a compact and light enclosure, the Komplex Sequencer is a powerful tool both live and in the studio.
