

## PPG Wave 2.2 - a fascinating hybrid synthesizer

PPG produced some highly innovative, creative products in the early and mid 1980s. Especially their synthesizer range has always been fascinating. PPG Wave instruments are a unique conglomerate of technical unreliability and unsurpassed musical expression.

Wave 2.0 / 2.2 and 2.3 are among the greatest synthesizers of all time, although they are no instruments for the occasional user. You need to invest time (and some money) to get the best out of these machines ...

Some pictures and sound examples of a PPG Wave 2.2 ...
