

Roger Linn & Dave Smith - Tempest

What would be the music world without Roger Linn's LM-1 and SCI's Prophet 5? The latter was developed by Dave Smith and John Bowen. Since then many years passed by and the three gentlemen developed new and exciting instruments. Some of them disappeared like their developers but fortunately the latter celebrate a come back with new instruments. Roger Linn teamed up with Dave Smith to developed Tempest, an analog drum machine. Listen to Roger Linn explaining some of the features in the following [Video](#).
