

SoundForce announces the SFC-101 MIDI Controller. SoundForce Controllers designs noble music production hardware. The company now announces the **SFC-101**, a custom MIDI controller for the [TAL BassLine-101](#) software synthesizer (a Roland SH-101 emulation). The SFC-101 is not “just” a MIDI controller, it offers you a complete and unique hardware experience within your software environment.

The intuitive layout makes it easier and more fun than ever to play your software synthesizer. As with other SoundForce controllers, the SFC-101 is a class-compliant USB MIDI device that can be used with any other MIDI-mappable software. The SFC-101 can be pre-ordered now for 249 Euros [...].”

The following video shows the SFC-101 in action:

This making-of video gives you an idea of the fine quality of SoundForce controllers (showing the assembly of a [SFC-60 controller](#)):

SoundForce SFC-101 MIDI Controller

Price: 249 Euros
