Studio Electronics - Boomstar - 4075, ARP Filter

Studio Electronics introduced for models of its new BOOMSTAR all analog, monophonic Synthesizer.

The main difference between the four different models is the filter. Currently one can choose between the following:

- 4075-classic Arp 2600
- 5089-classic Moog 24db ladder
- SEM-classic Oberheim 12db
- 303-classic Roland TB

The CS-80 Filter, which can be added to the company’s Omega and C.O.D.E. synthesizers, is currently not availble.

MSRP: $799.00

Studio Electronics - 5089-classic Moog 24db ladder, 303-classic Roland TB, SEM-classic Oberheim 12db Filter
