

The machines that changed music! Interesting link to the 10 greatest synthesizers of all time, on *musicradar.com*. As always, these are subjective assessments. But as of 2009, they are still “relatively” up to date. Analog, hybrid, digital - everything is represented. It is amazing to see who has made it into the top 10 ... and just as amazing to see what’s missing.

The Prophet-5 has made it into the top 3
