It’s exciting when a brandnew (and cool!) analog synthesizer sees the light of day. The GRP A4 prototype was completed last week! Enrico Cosimi – keyboarder and writer for “Audio Central Magazine” – has created four GRP A4 videos. He explains the instrument, step by step. Enrico’s summary: The A4 sounds even (slightly) better than the wonderful A8. It’s more versatile, it’s the “Wild Analog” …!

Now … sit down, have some coffee … and enjoy the A4!

GRP A4 - Video 1

**GRP A4 – Video 1: The Basics – Filter – Loop EG – etc.**

GRP A4 - Video 2

**GRP A4 – Video 2: More Details – Step-Sequencer – Auto-Pan – etc.**

GRP A4 - Video 3

**GRP A4 – Video 3: Exklusive Features – Ext. Audio In – Sample&Hold**

GRP A4 - Video 4

**GRP A4 – Video 4: The Wild Analog – A4 LIVE**
