

Various synthesizers for sale: Oberheim SEM Modular, Chroma Polaris, Octave The CAT SRM II, Sequential Multi-Trak (in original box), possibly the Juergen Haible JH-3200 PolyKorg Clone (a one-off) ... and a few other instruments.

01/2026. Modifications and errors reserved.

## Oberheim SEM Modular

- Cosmetic condition: very good
- Technical condition: very good
- This SEM rack got a service in 2024
- The two lids - front / back - are perfect for transportation

**Price: 5,500 Euros**

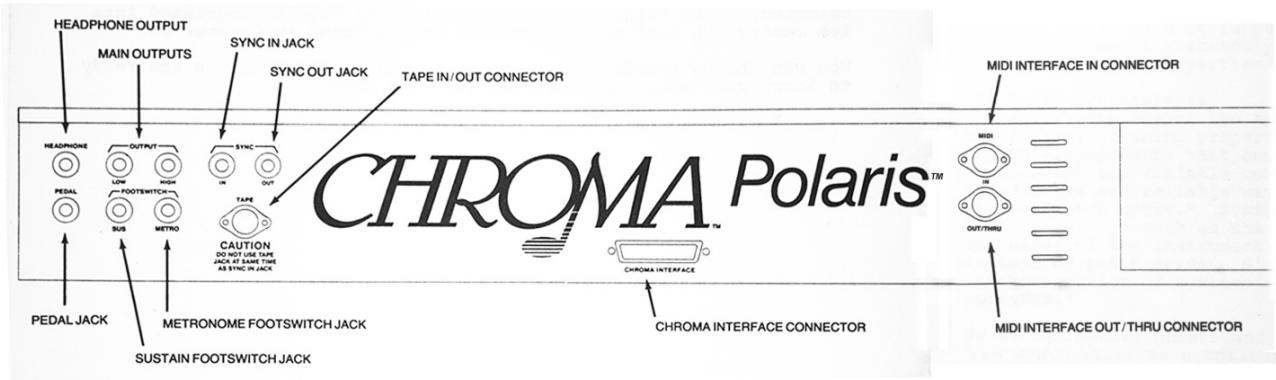

- Local pickup preferred
- Shipping possible

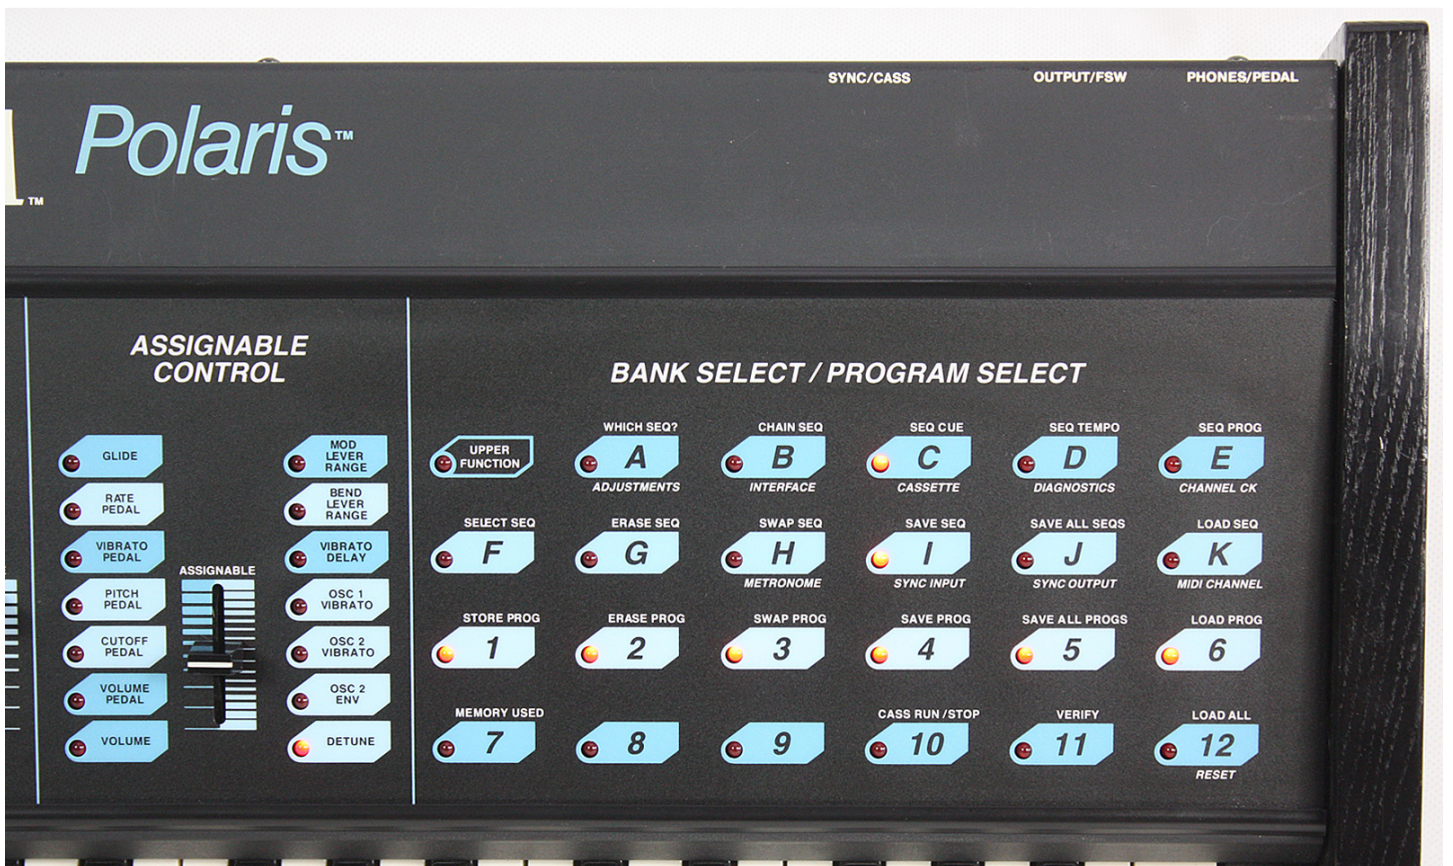

## **Fender / Rhodes CHROMA Polaris**

*CHROMA Polaris™*

- Cosmetic condition: excellent
- Technical condition: excellent
- PSU has been overhauled, new membrane foils, calibrated
- Near-to-perfect condition, comes with original user-manual

- Superb sound :o)

**Price: 4,500 Euros**

- Local pickup (no shipping),  
delivery from our side may be possible

## Octave THE CAT

- Cosmetic condition: very good
- Technical condition: very good
- Rare Octave The Cat SRM II, near-to-mint condition
- Beautiful sound (“the real thing”), solid hardware and excellent sliders (no comparison to the mediocre quality of ARP products of this size)

**Price: 3,000 Euros**

- Local pickup preferred

- Shipping possible

## Sequential Multi-Trak

- Cosmetic condition: very good
- Technical condition: very good
- Battery was replaced last year, comes with wooden side panels, original (black) side panels included, original PSU, original Sequential box

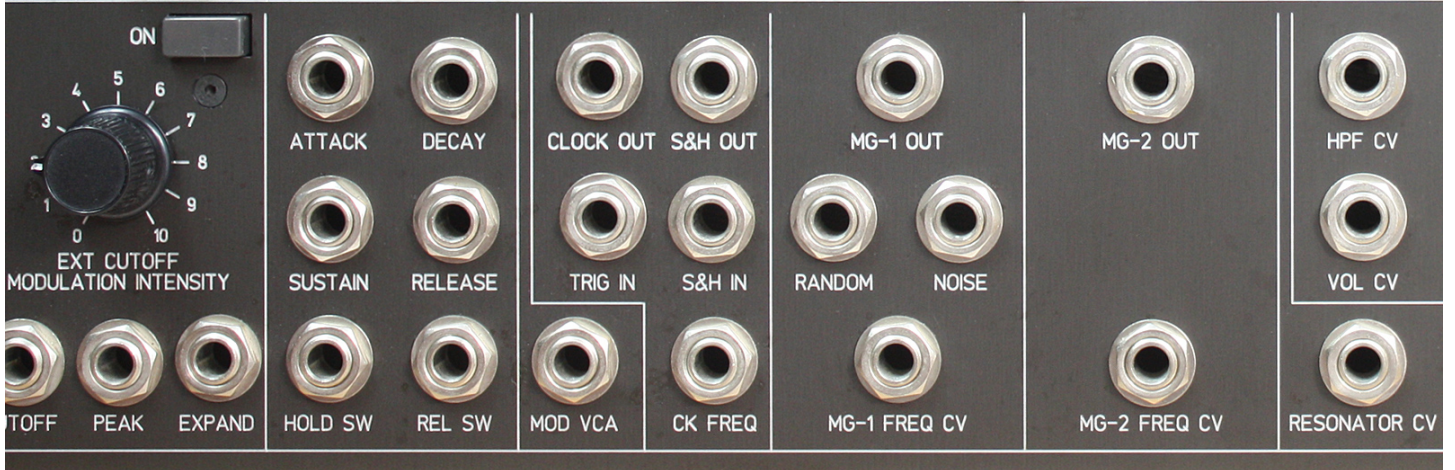

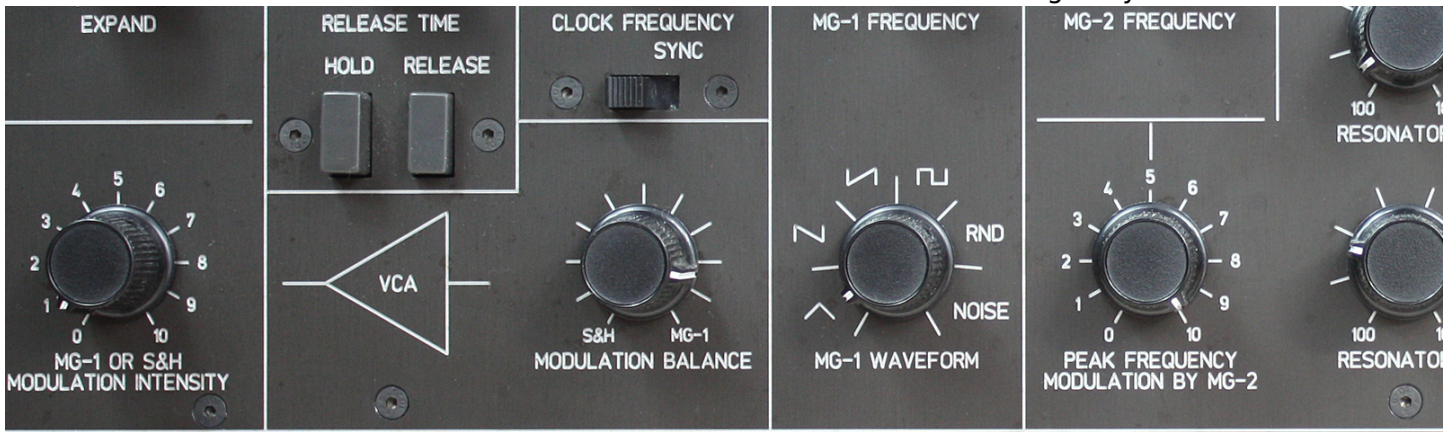

**Sold**

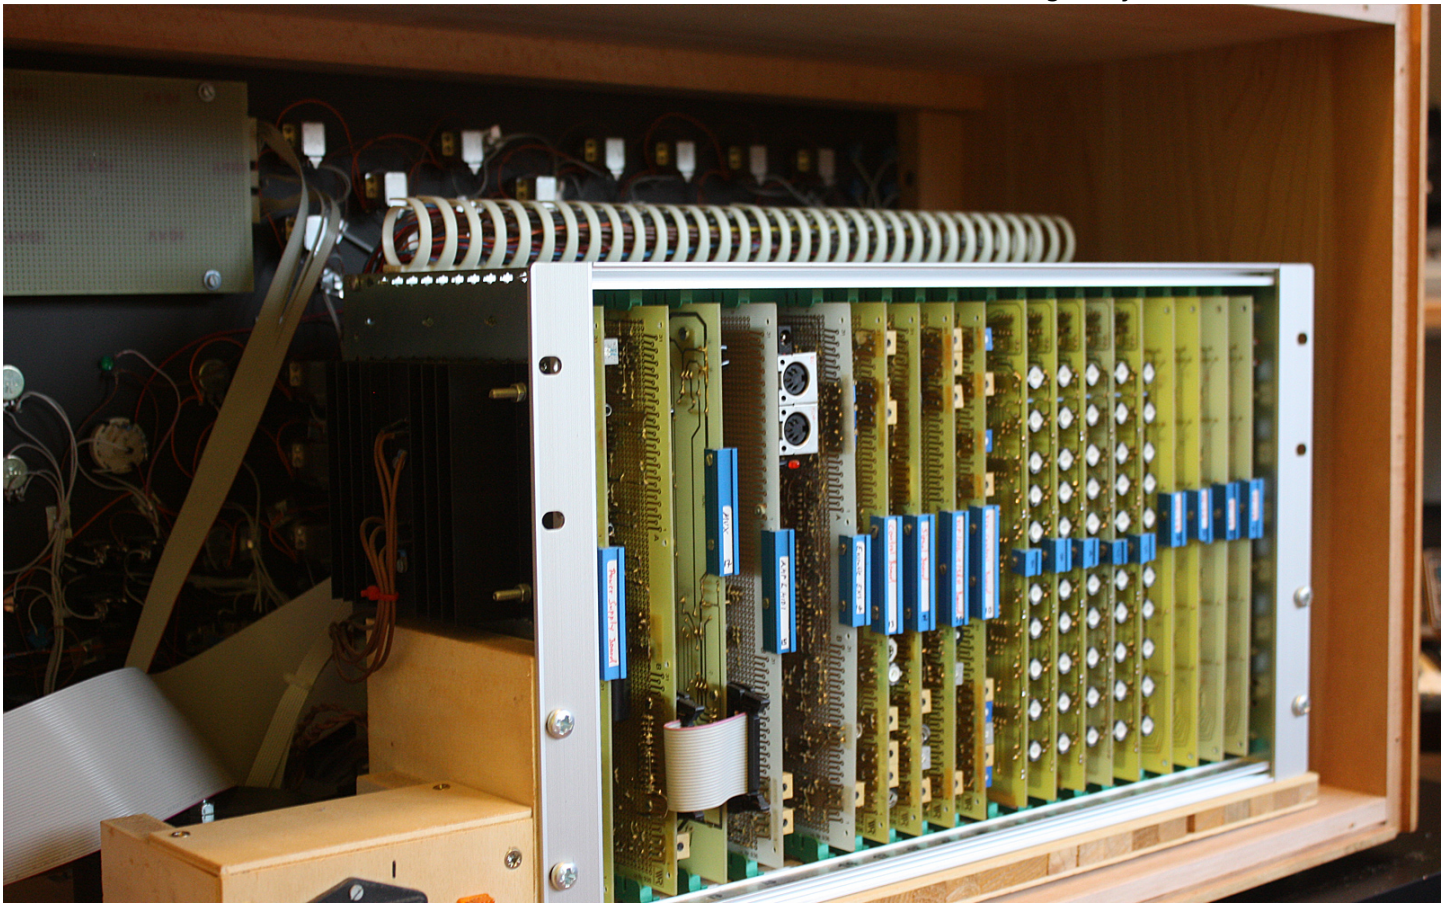

- Local pickup preferred
- Shipping possible

**Juergen Haible JH-3200 PolyKorg Clone (a one-off)**

## SOUNDFILES

1. [JH3200\\_Demo1](#)
2. [JH3200\\_Demo2](#)

- Cosmetic condition: very good
- Technical condition: very good
- A one-off, made by Jurgen Haible in 2002/2003
- The sale of the JH-3200 is not yet finalised, but since we have two PS-3100s with MIDI, it is at least 'conceivable'. If you are interested, please let us know.
- The JH-3200 is the perfect blend of PS-3100 (resonators) and PS-3200 (2 VCOs per voice, storability / pull-out potentiometers / 64 memories).
- Beyond that, the JH-3200 is an instrument all its own. It has an additional (global) HighPass filter, and instead of the Korg chorus, Juergen Haible opted for the more beautiful ARP OMNI 2 chorus, which is continuously adjustable in two levels.
- The sound is - to our ears - softer than the original character of the Korg PS series, with a marvellous character in stereo (direct out, main output), extremely lively and warm, truly "analog" (as opposed to the new PS-3300FS, at least to our ears)
- Of course, it can do much more than the pad sounds in the two sound samples, but the polyphonic pads are particularly nice ...
- Precise manufacturing, high-quality hardware, weight: 30 kg
- Full polyphony with 48 notes (C to B), MIDI connection
- All documentation/circuit diagrams available

**Price: 10,000 Euros**

- Personal delivery / local pickup only

Other instruments for sale:

- **ARP2600 MKIII** (red lettering) + **3620 Keyboard** (12,000 Euros)
  - **Kawai SX-210 with Tauntek MIDI** and original silver bag (1,500 Euros)
  - **Novation Supernova II** synthesizer (keyboard-Version) Sold
  - **Roland RV-800** Stereo Spring Reverb (RSS-Series) (1,900 Euros)
  - **Roland MKB-200** masterkeyboard (3x MIDI OUT) (350 Euros)
  - **Korg MS-10** (chassis has quite a few scratches) Sold
-
